MISS ANNIE BRADY

Classroom News:

Reading:

Today students took an assessment on Unit 4, Summarizing. Please expect those assessments back sometime next week. Next week we will move onto Unit 5. The comprehension strategy we will focus on is Compare and Contrast. The metacognitive strategy will be Determine Text Importance. Please remember that students should be reading 20 minutes nightly. You can use the 20 Together calendar to keep track!

Writing:

This week in writing we have continued looking at the features of an essay/prompt. We will be writing to prompts in the coming weeks. Then we will be transitioning into the genre of informational writing. Students will research a topic of their choice and write a report.

Math:

We are still plugging away at fractions! Next week we will subtract mixed numbers, and multiply and divide fractions. The

following week we will transition to decimals. If your kiddo is not fluent in their math facts, please consider math fact practice as homework every night. Knowing math facts goes a long way!

Science:

In science we have been working on Physical Science Chapter 3. Chapter three is all about gravity, force, and motion. Canvas assignments/chapter 3 notes are due next Thursday, February 11. The chapter 3 assessment will be Friday, February

Note from Miss Brady :)

NWEA:

Today NWEA scores should be in backpacks. If you have any questions regarding your kiddo, please let me know!

Canvas:

Parents, you can now

have your very own Canvas account! If you need help creating an account, first ask your kiddo and if your kiddo can't help, please feel free to email me!

Classroom Supplies:

If your family would be willing to donate some pencils to our classroom, that would be awesome!

Family Dates:

Wednesday, February 24 1:00-2:15

Thursday, March 31 10:45-11:35

Tuesday, April 26 9:00-9:45

Thursday, May 26 1:00-2:15
