MISS ANNIE BRADY

Classroom News:

Reading:

For the last two weeks in reading our focus has been visualizing and making inferences. We will test on these skills next Friday, December 2. Inferring can be a tricky skill, however with practice it becomes second nature. As your kiddo reads 20 Together each night, encourage them to share any inferences they have as they read!

Writing:

We are still working on our memoirs. Right now

the focus is to add emotion details, character details, and setting details. Students are writing these using their Google Docs, so feel free to take a look at them at home!

Math:

We are still working on the geometry unit. Next week the focus is surface area and volume, there will be a quiz on these two concepts Friday, December 2. The unit assessment for geometry will be Wednesday, December 9.

Science:

Students have begun working on Physical Science Chapter 1. The assessment for Chapter 1 is scheduled for Tuesday, December 8. However if anything, that will be changed to later in that week. Students can work at home on science as well.

Note from Miss Brady :)

First of all, thank you so much for being such a supportive group of families. This is truly a team effort!

Please make sure your kiddo is wearing a coat to

school, I care a lot about each one of your students and I want to make sure they are warm on the playground!

The next classroom

visit is scheduled for Tuesday, December 15 from 12:45-3:15, this is our reading block.

need, including enough to give to others. I look forward to spending my favorite holiday with all of the people I love most!

giving Day! always have fun with my cousins and family.

I am thankful for my little sister because she has given up so much to wake up so I can go to choir and orchestra. And that is saying a lot because she hates waking up in the morning. Also for my

Thanksgiving. And I almost forgot I'm also thankful for my wonderful wonderful friends!:)

I am thankful for my life, my mom, my dad, my sister: Sophie, my flexibility, the food that I am

given, my whole family, my ability to walk, and the teachers that I know especially Ms. Brady. I’m glad that Ms. Brady is at Cooks Corners. I am especially thankful for my mother and father and... Mrs. Krysa. I will say the same thing for Mrs. Schnabel and Mrs. Krysa like I did with Ms. Brady. I am glad they are at Cooks Corners. I am also thankful for being at Cooks. I am thankful for my teacher. unlike the others, I like my teacher, Ms. Brady and Mrs. Schnabel and Mrs. Krysa X 1,000,000,000 (1 billion) I am thankful for the most important thing of all: my life, and my teacher made me feel so welcome to Cook's Corners... and so in conclusion... there is a lot of things that I am thankful for...

To start off be warned this is a lot to read so be prepared... I am thankful for having a family who loves me, friends who care about me, a home to be sheltered in, a school to learn not only academically but socially too. I am thankful for food to keep me from starvation. And I am especially thankful for being able to experience a new start here in Valpo and here I am able to do things

that I wasn’t able to before, like playing after school with friends, or bring snow stuff to school, and I got to meet kind and wonderful new people like my friends and my teachers. Miss Brady and Mrs Allison, last year they made me feel so, welcome in a strange new school with new people I didn’t know and now I’m friends with so many people I’m just amazed. This year I was so happy that I

got into Miss Brady’s class because I already knew her and that this year I would get to know her better. And in conclusion I have a lot to be thankful for.....
